BLOODSTOCK, LIVESTOCK & AQUACULTURE

We arrange insurance for risks such as cattle feedlots, dairy farms, poultry farms and zoos.

BLOODSTOCK, LIVESTOCK
& AQUACULTURE

BLOODSTOCK, LIVESTOCK & AQUACULTURE

We insure risks such as cattle feedlots, dairy farms, poultry farms and zoos in the region.

WHO WE WORK WITH

We can arrange insurance for a wide variety of animals placed in different situations.

- Aquaria and wildlife parks
- Global food manufacturers
- Individual farmers
- Large farming groups
- University facilities

WHAT WE CAN OFFER

Livestock:

The core cover is either Named Perils or All Risks of Mortality (ARM).

Bloodstock

Specialising in all things equine, we offer solutions for: stallions, mares, yearlings, foals, racehorses, as well as elite competition/sports horses. Our equine insurance includes (but is not limited to):

- First season infertility
- Mare barrenness
- Prospective foal

- Stallion loss of income

- Vet fees

Aquaculture & Fisheries

Our main policy coverage is stock mortality or loss. Additional covers can be provided to cover live fish transits.

- Aquaculture workboats and vessels
- Live fish transits
- Offshore equipment, including feed barges
- Stock mortality insurance – both onshore and offshore
